IT SECURITY HEALTHCHECK

Are you feeling vulnerable?

DATA SHEET

BUSINESS CHALLENGE

With cyberattacks increasing both in quantity and sophistication, how can your organization know with certainty whether its defenses have been compromised? If so, how easily can the nature and extent of the breach be identified? How quickly can it be detected and remediated? Many organizations today lack the necessary visibility, toolsets, resources, and experience needed to answer these questions with confidence.

FREE PERSONALIZED IT SECURITY HEALTHCHECK

We help organizations of all sizes and in all industries identify cybersecurity risk and protect against cyberattacks.

Our IT Security Healthcheck can help you:

- Determine if a network has been compromised.

- Obtain results in a minimum of three weeks.

- Minimize the impact on your IT system resources through a scalable and efficient process that uses dissolvable scripts and a lightweight agent, CylancePROTECT®.

- Assess cybersecurity compromises of Windows®, macOS®, and Linux® operating systems.

DELIVERABLES

At the conclusion of the IT Security Healthcheck, you will receive the following:

- IT Security Healthcheck Report: If a past or current compromise is detected, the IT Security Healthcheck Report details the findings, including the nature of the compromise, its extent and impact on your endpoints[1].

BENEFITS

- Free personalized IT Healthcare Report

- Backed by BlackBerry engineering

- Industry leading operational visibility

- Increase insight and empowerment

- Report card summary

HOW TO GET STARTED

We will work closely with BlackBerry and your organization to implement the IT Security Healthcheck. It's easy to get started and this offer is available to all – you aren't required to be an existing BlackBerry customer.

Contact CoMo Solution GmbH (info@como-solution.de or +49 9123-18 337-00) to begin your free assessment.

IT HEALTHCARE PROCESS	BLACKBERRY	PARTNER	CUSTOMER
BlackBerry partner and customer meet to discuss feasibility and identify process owners		X	X
BlackBerry builds tenant for the customer	X		
BlackBerry partner installs agent in production environment – runs for minimum of 14 days and a maximum of 4 weeks		X	X
BlackBerry runs the corresponding health check for the customer	X		
Joint review to guide through health check report and identify gaps		X	X
